## MONSTER

*....a dream or not a dream, reality or not.....I am falling down in the maze of imagination. Am I in a strange space? It looks like film scenery. Am I in "Star Wars"?*

*I am surrounded with the fog. Nothing is light, nothing is dark. Suddenly, something attracts my attention. I notice some movement. Thousands points meet in undefined shape and unexpectedly I can see a MONSTER before my eyes. Am I inside a tricky surrealistic picture? The monster is growing bigger. Is it interspaced dragon? Those sorts of dragons in films, computer games and books are quite cool. But meeting them eye to eye??? Maybe Sphinx or Minotaur comes to take revenge for not paying attention to the Myth's lessons... Well, definitions like "monster as a symbol and culture archetype are not always being recognized by pupils. IMAGINATION-that is the point. It is worth using it to create absolutely own, fierce creature when you are bored or nice and funny one when everyone is in a bad mood. It is possible that this Creature is the result of your imagination only. Does the process of creation looks like that?*

### MONSTER-CREATURE-CREATIVITY?

*Maybe, also your thoughts followed this way once. You have been considering about different, strange monsters in many cultures, both good and bad. Did you think where they came from, who created them and why?*

*DO YOU FEEL LIKE ENTERING INTO THE MAZE OF IMAGINATION AND MAKE INTO LIFE YOUR INDIVIDUAL CREATURE WHICH WILL EXPRESS FEAR, ANXIETY OR ENORMOUS HAPPINESS?*

*IF, YES, JOIN TO OUR CONTEST, PLEASE!*
